

COLORADO
Department of Public
Health & Environment

7/29/2021

In prior years, the Colorado Department of Public Health and Environment (CDPHE) inadvertently provided Air Monitoring Specialists (AMS) state-issued ID cards after passing the Division-administered closed book examination. Moving forward, CDPHE will not issue AMS ID cards and will only issue AMS certificates as required by Regulation No. 8, Part B. AMS's are required to have their state certificate available as required under Colorado Regulation No. 8 section II.A.2.

II.A.2. Photo IDs and Certificates

Each individual certified under this regulation must have their state certification photo identification (ID) card or state certificate available at each work site so that Division representatives may check their credentials.

Each individual trained under this regulation must have a copy of their most recent training or refresher certificates available at each work site so that Division representatives may check their credentials.

Please contact the Indoor Environment Program Certification Coordinator at 303-692-3100 or cdphe.iepcertification@state.co.us for additional information.
